What Happens??

Good question!! What happens when one decides to get involved and do something for their hometown, instead of sitting around watching the boob tube and vegetating their life away?

Here is what happens---

You get to sit in a beautiful 1931 Roadster with rumble seat. It is one of the many old Chevys that stopped in for a visit to the McGill Drugstore.

Thankfully, there are people that restore these old beauties instead of scraping them. Here is the dashboard. What a classy vehicle.

The cars were all lined up in McGill. What a wonderful collection. Our fondest thanks , to all those owners for bringing them to McGill so we could see them and bring back many wonderful memories.

Last year the Model A group came over from Utah. I was telling one of them that my brother Paul and I used to ride in the rumble seat of my parent's 1929 Model A coupe. We did this until I was 8 years old. My folks got a second car, a 1940 Chevy sedan.

One of the owners offered me a ride in his 1929 yellow coupe with a rumble seat. I got in and away we went around the block. I gave my camera to a man and he took lots of photos. The only problem was that the SD card was locked and so no photos. This year I gave the camera to a professional photographer from Ely, Sean Pitts, the director of the train museum. He did a great job. Thanks Sean.

My father in his car. I don't know why they called him speed or what year the car was.
